COMMENTARY

SIFT's assets grew by 15% quarter-on-quarter and 265% year-on-year to GHS91.3m. Earnings contributed 33% of the growth over the 3 months. Investments in government bills were reduced in favor of government bonds as rates continued to taper. The annualised return for SIFT for the first quarter stood at 18%, higher than the annualised benchmark of 16%.

The Fund's return is expected to improve as short term exposures are reduced in favour of longer dated papers at relatively higher yields.
