THE CONSTITUTION AND OBJECTIVES OF THE SCHEME

1. Name of the Scheme

The name of the Scheme is **Campus Mutual Fund** (the “Fund”)

2. Nature of the Scheme

The Scheme is an open-end mutual fund.

3. Date of Establishment and Duration

The Scheme was established on September 26, 2005 with an unlimited duration.

4. Investment Objectives of the Fund

The investment objective of the Fund is to systematically grow money given to it by its subscribers by investing in companies listed on the Ghana Stock Exchange (GSE) with good potential for high returns and also in other money market instruments. The Fund seeks a combination of capital appreciation and current income for its shareholders.

5. Fundamental Investment Policy

The Fund shall be established and will operate in accordance with L.I.1695. The Fund shall be marketed as a 'balanced fund', which means it will invest in a combination of listed equities, bonds, as well as other suitable money market securities to achieve its investment objective.

The Fund’s investment objective is to outperform the GSE All-Share Index. In order to achieve this objective, it is essential that the Fund has an equity bias when the stock market is performing well and a money market bias when the stock market is trending downwards.

The Fund Manager shall have the discretion to select specific investments within these asset classes. However the following limits shall be in place:

- Ghana Government Treasury Bills - 30% of total portfolio value
- Other money market instruments (not issued by government) - 20%;
- GSE listed securities - 50%.

These limits shall be subject to an annual review.

Although the funds will be managed to achieve maximum returns, due to the inherent risk in stocks the total attainment of the objectives of the investment cannot be guaranteed. The Fund Manager shall however be expected to deliver optimum returns on a best efforts basis.

6. Permissible Investments

The Fund is authorized to invest in securities issued by listed companies operating in any sector of the economy within Ghana as well as money market instruments and to employ a variety of investment techniques to hedge against market and currency risks to the extent available and permissible by law.

7. Hedging transactions

The Manager may enter into hedging transactions allowed by law. Notwithstanding the availability and permissibility of hedging transactions, the Manager, with the prior approval from the SEC, will only engage in hedging activities from time to time and only when such activities are deemed to be appropriate and prudent.

At any rate, hedging will be undertaken on a very limited basis and as risk management tool as opposed to an investment strategy. For instance, if the Cedi were to undergo rapid depreciation, the Manager should consider the possibility of buying foreign currency forwards from any counterparty bank. This would enable the proceeds from maturing money market instruments to be immediately dollarized to retain their value. Specific hedging strategies and implied costs shall depend on the related circumstances and can only be quantified when the situation arises.

8. Investment in Schemes or Property managed by the Manager or its Associates.

The Manager is authorized to invest in other collective investment schemes whether managed by the Manager, its associates or by any other person. The Property of the Scheme may be invested in a property which is managed by the Manager or by an associate of the Manager.

No more than 10% of the net asset value of the scheme should at any time be invested in other collective investment schemes managed by the Manager.

9. Limitations on Investment

Except with the prior approval of the Commission, the Manager shall not undertake the following on behalf of the Scheme:

- h. Make any investment that will result in the Manager, trustee or the scheme gaining management control of a company in which the investment has been made;
- i. Make short sales of securities or maintain a short position;
- j. Acquire any securities which are unpaid or partly paid for;
- k. Apply any part of the assets of the scheme in the acquisition of an investment which is likely to involve the scheme in any liability, contingent or otherwise;
- l. Enter into underwriting or sub-underwriting contracts in relation to the subscription or purchase of any investment;
- m. Invest in any securities of class in a company or other body if any officer or a collectively officers of the Manager of the scheme own more than 5% of the total nominal amount of the securities of that class issued by the company or body;

10. Dividend Policy

It is the intention of the Fund to re-invest all its investment income, if any. Therefore dividends will neither be declared nor distributed. As such, individual investors should benefit from a growth in the Net Asset Value of each unit of the Fund they hold.

2. Legal Risk

Ghana's law regarding fiduciary duties of officers and directors of investment management firms, and the protection of investors are developing and laws may not exist to cover all contingencies. As a result, the administration of laws and regulations by government agencies may be subject to considerable discretion.

3. Market Risk-Availability and Liquidity of securities

The Ghanaian securities market is small, illiquid and potentially volatile. The limited liquidity of the Ghanaian securities market may also affect the Fund's ability to acquire or dispose off securities at the price it so wishes to do.

4. No Rating Criteria For Debt Securities

There is no credit rating agency in Ghana and therefore no rating criteria for the debt securities in which the Fund may invest. In purchasing such securities, the Fund will rely on the Manager's thorough due diligence analysis of such investments, professional judgment, analysis and experience in evaluating the credit worthiness of an issuer. The manager will take into consideration, among other things, the issuer's resources, and its sensitivity to economic regulatory matters.

5. Taxation

Under Ghanaian tax laws, the interest, dividends, or any other income of a Mutual Fund is exempt from income tax. Capital gains on sale of securities listed on the Ghana Stock Exchange are exempted from tax until 2010. There is however a 10% withholding tax on dividends.

6. Issue Risk-Effect of Redemption Charge

With the imposition of a redemption charge, an investor who realizes his/her shares after a short period may not (even in the absence of a fall in the value of the relevant investments) realize the amount originally invested. The purchase of campus mutual shares therefore should be viewed as a medium to long-term investment.

7. Issuer Specific Risk

Campus Mutual is a new Fund that may encounter start-up difficulties that impact its operations. These may include disruptions to the computer systems that drive the business, staff adherence to internal policy relating to executing client order etc. An internal system of checks and balances shall be put in place to identify and resolve these issues as they occur.

8. Target Market Risk

Campus Mutual has identified staff, students, and faculty of the tertiary institutions as its primary target market. The general public, recent graduates, young professionals, the Funds first time investors constitute the secondary market. There is the risk that members of the primary market may either have insufficient funds or interest in the scheme to make it a success

5. Regular Investment Plan

This is a purchase plan that allows an investor to transfer money automatically from his or her bank to the Manager on monthly basis to purchase shares in the Fund. The minimum subscription to the Regular Purchase Plan shall be ₵100,000 and must be transferred automatically from a bank account on a monthly basis to the Manager for investment in the fund by the shareholder. The Fund may alter or terminate this arrangement at any time. Investors are to contact the Manager for further information about this service.
