The Board of Directors established the Bank's Risk Management Frameworks and Assets and Liabilities Committee (ALCO) to be responsible for the monitoring of the Bank's risks.

The Bank has Risk Management and Compliance Departments which have policy and procedure manuals which have been instituted by the Board of Directors and Management. A comprehensive departmental manual has established a framework within which Management effectively manages and controls risks. The tasks involved in the risk management functions are to identify, define, measure, control, monitor and mitigate potential events that could impair the ability of the Group to generate stable and sustainable financial results from its operations.

b. Risk management, compliance frameworks and measurement

All risks are qualitatively and quantitatively evaluated on a recurring basis. Management understands the degree and nature of risk exposures on decisions regarding allocation of resources. Risk assessment is validated by the Risk Department which also tests the effectiveness of risk management activities and makes recommendations for remedial action. The Dank also identifies risk by evaluating the potential impact of internal and external factors, business transactions and positions. Once the risks are identified, various mitigating measures are put in place to regulate the degree of risks in
